About Me

My journey in programming began with a curiosity that quickly evolved into a passion for coding. I have completed relevant coursework and personal projects that have allowed me to gain hands-on experience in Python and its various applications.

My Projects

- **Face book clone** - Using Html, Css and Bootstrap
https://robinromance.github.io/Face_Book_Clone/
Here i just show my front end ability with using basics of html and css
- **Netflix Clone** - Using Html and Css
https://robinromance.github.io/Netflix_Clone/
In this, I utilized various methods of CSS hovering and employed transformative properties, as demonstrated in the provided link
- **To Do list** - Using Html, Css, Python and Django fr-work
https://github.com/robinromance/ToDo_List
In this project, I worked on CRUD (Create, Read, Update, Delete) operations, successfully combining all aspects of the project for the first time.
- **Doctors Booking page** - Using Html, Css, Bootstrap, Python and Django fr-work
vinodhromance.pythonanywhere.com
In this, I implemented additional functionalities and successfully deployed my sample website for the first time using Python anywhere. You can access it via the link provided above.

Additional

- **Free Code Camp Certification** - Responsive Web Design
- **GUVI Certification** - Python Developer
- **Avodha Edu Tech** - Python - Djanjo Developer
